Notices:

1. Please check and confirm whether the accessories are complete. If any accessories are missing, please contact our after-sale personnel in time. 2. Because it is bamboo products, it may exist a little odor, which is a normal situation. If mind, you can put it in a ventilated place and then use.

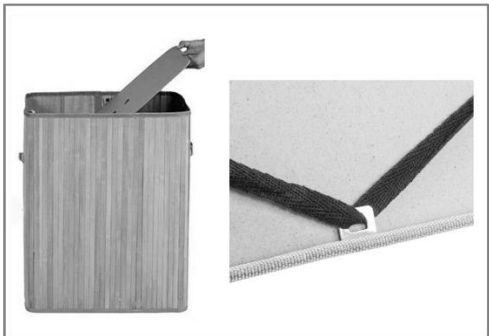

1.

There are 4 closed rope holes at the bottom of the basket, making ropes pass through the rope hole in turn, and finally tie a knot.

2.

Put the iron wire into the top of the basket (there is a button on the top), and use button to fix the iron wire.

3.

Put the board to the bottom of the basket and fix it.

4.

Cover the cloth sleeve from the top of the basket, and then put cover on it, and finally the installation is complete.
